Solidea - Therapeutic includes anti-thrombosis tights and socks, anti-embolism and therapeutic stockings to treat varicose veins, lymphedema and venous disease.

Anti-thrombosis tights and socks | Anti-embolism stockings

Varicose veins are saccular and distended veins which can expand considerably and may cause painful venous inflammation. Once developed, they will not disappear on their own. The formation of varicose veins is an externally visible sign of venous weakness.

Compression stockings - Wikipedia

Sclerotherapy (the word reflects the Greek skleros, meaning "hard") is a procedure used to treat blood vessels or blood vessel malformations (vascular malformations) and also those of the lymphatic system. A medicine is injected into the vessels, which makes them shrink. It is used for children and young adults with vascular or lymphatic malformations.
