Constrained Nonlinear Optimization Algorithms - MATLAB

In statistics, nonlinear regression is a form of regression analysis in which observational data are modeled by a function which is a nonlinear combination of the model parameters and depends on one or more independent variables. The data are fitted by a method of successive approximations.

Nonlinear regression - Wikipedia

Dynamical systems theory is an area of mathematics used to describe the behavior of the complex dynamical systems, usually by employing differential equations or difference equations. When differential equations are employed, the theory is called continuous dynamical systems. From a physical point of view, continuous dynamical systems is a generalization of classical mechanics, a generalization ...

Dynamical systems theory - Wikipedia

District cooling system (DCS) has been widely used because of its low cost and high energy efficiency. Excessive studies have been done on DCSs, based on either actual projects or hypothesis.

User's Guide for SNOPT Version 7.6: Software for Large-Scale Nonlinear Programming Philip E. GILL and Elizabeth WONG Department of Mathematics University of California, San Diego, La Jolla, CA 92093-0112, USA

User's Guide for SNOPT Version 7.6: Software for Large

Documents SAS/IML software, which provides a flexible programming language that enables statistical programmers to perform statistical data analysis, simulation, matrix computations, and nonlinear optimization. SAS/IML software offers a rich, interactive programming language with an extensive library of subroutines and enables you to create your own customized function modules.

SAS/IML(R) 13.1 User's Guide

I have a bibtex database of optimization references (900K) available online. These are mostly interior point references. A searchable version of this bibliography is also available. I also have an unorganized list of announcements of computational packages that are available for solving a variety of problems. This page is not updated often enough, so some of the links are no longer functional.

Optimization and Operations Research - rpi.edu

IEEE Transactions on Neural Networks and Learning Systems publishes technical articles that deal with the theory, design, and applications of neural networks and related learning systems.

IEEE Transactions on Neural Networks and Learning Systems

International Journal of Systems Science and Applied Mathematics (IJSSAM) is a peer-reviewed and open access journal that provides an international forum for researchers, scholars and practitioners of systems science and applied mathematics to share experiences and communicate ideas. It is to publish refereed, well-written original research articles that describe the latest research and ...

International Journal of Systems Science and Applied

Automation, Control and Intelligent Systems (ACIS) provides readers with a compilation of stimulating and up-to-date articles within the field of intelligent systems. The focus of the journal is on high quality research that addresses paradigms, development, applications and implications in the field of intelligent systems. All research articles in <i> ACIS </i> will undergo rigorous peer ...

Systems Simulation: The Shortest Route to Applications. This site features information about discrete event system modeling and simulation. It includes discussions on descriptive simulation modeling, programming commands, techniques for sensitivity estimation, optimization and goal-seeking by simulation, and what-if analysis.

Optimization-Modeling Process Optimization problems are ubiquitous in the mathematical modeling of real world systems and cover a very broad range of applications.

Linear Optimization - home.ubalt.edu

Abstract: S-systems are simple examples of power-law dynamical systems (polynomial systems with real exponents). For planar S-systems, we study global stability of the unique positive equilibrium and solve the center problem.
