Three Decisions about Theory. The assumption that an organization is an object with an independent existence—that is to say, it has an “objective” rather than “subjective” reality—is characteristic of the postpositive An approach to organizational communication which holds that organizations have objective existences. Since the imperative to optimize performance governs the ...

Modern Theories of Organizational Communication

The concept of information as we use it in everyday English in the sense knowledge communicated plays a central role in today's society. The concept became particularly predominant since end of World War II with the widespread use of computer networks.
