Nursing homes, also known as convalescent homes, are a type of residential care that provide around-the-clock nursing care for elderly or disabled people. Twenty-four-hour nursing care is available. Nursing homes will provide short-term rehabilitative stays following a surgery, illness or injury which may require physical therapy, occupational therapy or speech-language therapy.

Nursing home care - Wikipedia

Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice. Nurses practice in many specialties with differing levels of prescription ...
